

**STATE AIR POLLUTION CONTROL BOARD ENFORCEMENT ACTION**  
**A SPECIAL ORDER BY CONSENT**  
**ISSUED TO**  
**GLOBAL STONE JAMES RIVER, INC.**  
**REGISTRATION NUMBER 20320**

**SECTION A: Purpose**

This is a Consent Special Order issued under the authority of Va. Code § 10.1-1307.D, 10.1-1309, 10.1-1184, § 10.1-1316.C and 10.1-1186.2, between the State Air Pollution Control Board and Global Stone James River, Inc. for the purpose of resolving certain violations of State Air Pollution Control Laws and regulations.

**SECTION B: Definitions**

Unless the context clearly indicates otherwise, the following words and terms have the meaning assigned to them below:

1. “Va. Code” means the Code of Virginia (1950), as amended.
2. “Board” means the State Air Pollution Control Board, a permanent collegial body of the Commonwealth of Virginia as described in Code §§ 10.1-1301 and 10.1-1184
3. “Department” or “DEQ” means the Department of Environmental Quality, an agency of the Commonwealth of Virginia as described in Va. Code § 10.1-1183.
4. “Director” means the Director of the Department of Environmental Quality.
5. “Order” means this document, also known as a Consent Order.
6. “Global Stone James River, Inc.” means the corporation certified to do business in Virginia and its affiliates, partners, subsidiaries, and parents.

7. “Facility” means the structure owned by Global Stone James River, Inc. located at State Route 40 in Buchanan, Virginia.
8. “WCRO” means the West Central Regional Office of DEQ, located in Roanoke, Virginia.
9. “Permit” means stationary source permit issued to Global Stone James River, Inc. which became effective 1/29/02.
10. “O&M” means operations and maintenance.

### **SECTION C: Findings of Fact and Conclusions of Law**

1. Global Stone James River, Inc. owns and operates the Facility subject to the Permit.
2. The Facility is a stationary source as defined by 9 VAC 5-10-10.
3. DEQ has noted apparent violations of the Air Pollution Control Law and regulations at the Facility. These problems, noted in a Notice of Violation issued by DEQ on 4/25/02, include:

On 4/18/02, DEQ staff observed excessive fugitive dust emissions from the haul roads, within and surrounding the Facility. Staff located the water truck used to suppress fugitive dust. Staff’s observations are listed below:

- A. At arrival, staff observed that both water trucks were parked, not in operation, nor in the process of being refilled with water.
- B. Staff observed the area of haul roads where excessive fugitive dust was being generated.
- C. Staff was informed and observed that moisture was being retained in some shaded areas of the roads, providing evidence that water had been applied during that day.
- D. Staff was informed that the water truck was not in operation during the normal lunch break period of quarry truck drivers and during a period of reduced quarry truck traffic during a quarry blast. The period of time not in operation prior and during my investigation was approximately two hours. The details of the time frame of water truck operations were part of the compliance evaluation in determining the magnitude of period of noncompliance. The water truck was not operational and controlling dust in a reasonable manner

during the investigation, however WCRO staff did recognize and acknowledge that this alleged non-compliance occurrence, was during a brief period of time and not during all operating hours that day.

The aforementioned observations indicate that the following regulatory requirements have been violated:

- A. 9 VAC 5-50-90 of the State Air Pollution Board Regulations Standard for Fugitive Dust/Emissions – failure to take reasonable precautions to prevent particulate matter from becoming airborne.
- B. Permit Condition #3 (c.) of the Permit states that “Dust from haul roads and traffic areas shall be controlled by the application of asphalt, water, suitable chemicals, or other equivalent methods approved by DEQ.”
